

Product Safety Recall

Kyocera Document Solutions A3 Multifunctional Printer with the Optional Accessory PF-410 Paper Feeding Unit

Models: KM 1620 / 1635 / 1650 / 2050 / 2550 | Serial Number range: AHZ3 000001 - AHZ3 322326

Sold from August 2004 to June 2010 at various office supply dealers.
This is an old product line that was discontinued in 2010

Defect: When the optional accessory '300 sheet feeding unit / PF – 410' is installed to the printer and then detached and reinstalled there is a possibility of breakage or deformation between the main unit and paper feeding unit.

Hazard: If breakage or deformation occurs, it can affect the electrical connector and lead to smoke or fire.

What to Do: Do not remove and reattach the paper feeding unit to the main unit.

Contact the dealer where the product was originally purchased or Kyocera Document Solutions Australia organise a free inspection and repair of the device - they are also contacting all identified owners.
