

ELECTRICAL SAFETY RECALL

Kyocera Document Solutions Australia Pty Ltd

A3 multifunctional printer (MFP) with the optional accessory PF-410 paper feeding unit

Identification: Models: KM 1620 / 1635 / 1650 / 2050 / 2550

Product was sold at various office and printer supply dealers. Product was discontinued in 2010.

Serial Number range AHZ3 000001 - AHZ3 322326

Defect: When an optional accessory '300 sheet feeding unit / PF – 410' is installed to the printer and then detached and reinstalled there is a possibility of breakage or deformation between the main unit and paper feeding unit electrical connector.

Hazard: This may cause smoke or fire from failure of the control board, causing potential serious injury to users and surrounding property.

Action Required: Affected owners will be contacted directly by either Kyocera Document Solutions Australia or the dealer from where the product was originally purchased.

An inspection and repair of the device will be completed free of charge. Consumers should not attempt to move the main unit from the paper feeding unit until repairs have been completed.

Consumers can contact Kyocera Document Solutions Australia on 13 59 62 Option 3, Mon - Fri 8:00am - 8:00pm AEDT, or via email PrinterSupport@dau.kyocera.com
